**Method #1**

## **How to make money by a strategy called consignment selling**

What is consignment selling? Consignment selling is the process of selling products for others in return charging a percentage of the profit usually 25-30%. This appears to be one of the fastest growing small businesses of the new millennium. In fact, ebay says that selling goods for others, consignment selling is the fastest-growing business segments on Ebay. Currently, over 80,000 sellers have registered for the Ebay trading assistant program.

If you decide to become a consignment seller your responsibilities will be the following:

- \* Writing enticing descriptions of the items
- \* Photographing the items to be sold
- \* Listing the items for auction ( a couple good sites that I use in addition to Ebay are [www.ubid.com](http://www.ubid.com), [www.bidz.com](http://www.bidz.com), [www.auctions.yahoo.com](http://www.auctions.yahoo.com))
- \* Placing ads in local classified listings such as [www.craigslist.com](http://www.craigslist.com) ( [www.craigslist.com](http://www.craigslist.com) is awesome for the consignment seller because at this time listing items is free and not subject to listing fees like on ebay.)

## **What you will need to do to get started and become a successful consignment seller**

1) The first thing you should do is sign up for the Ebay trading assistant program @ <http://pages.ebay.com/tahub/index.html> as it offers free access to Ebays marketing and education resources. There are some general requirements in order to become a trading assistant through ebay. However, If you have prior experience with selling on ebay and have previous feedback record of at least 100, this would be where I would advise you to invest your time as the business comes to you, you don't go to it.

2) Create a fee schedule of how much of a commission you will charge when you sell an item. As a general rule of thumb, average commission for a consignment seller varies anywhere from 20-30% of the profit. I charge 20% . So if you sell and item for someone for 200.00 and you charge 20% of profit you are looking at

\$40.00 in commission. Simply for selling someone else's goods for them.

3) Start selling & making Money

## How I find products to sell on consignment

A great source that I use every day in my consignment selling business is [www.craigslist.com](http://www.craigslist.com). This is a free classified website that is the consignment sellers paradise. It is full of people trying to sell their unwanted items. The problem is Craig list.com does not reach as many potential buyers as other sites like [ebay.com](http://ebay.com). Many times people list there items on [www.craigslist.com](http://www.craigslist.com) and unsuccessfully sell it.

This is how I make money from Craig list.com consignment selling

I visit [www.craigslist.com](http://www.craigslist.com) everyday and browse through what people are trying to sell.

*Simply cruise these listings and contact sellers*

is an example of a recent listing that I made 23.57 selling for a customer

Here

*Simply contacted person that posted this ad via email address supplied and offered to get them 85.00 for it if they sold it through me*

This customer had listing a on [www.craigslist.com](http://www.craigslist.com) for a brand new cell phone for \$50.00. This is a very typical listing. People listing items way below what they could actually sell for simply to get rid of the items quickly. I simply researched the average selling price of this phone on ebay through the advanced search listing and found that the average price of this phone was 145.00. At that point I knew that there was some money to be made with this listing. I contacted the person that listed this item via the contact link provided in the email. I introduced myself as the owner of a consignment selling business specializing in selling unwanted products for people. I informed the customer that I could sell there item for them with no risk and more than likely get them more than they were asking. Well this was pretty much a no brainier for the customer, as I offered to get them 65.00 instead of 50.00 if they sold it through me. So this is how it went.

I created a ad on ebay.com for this cell phone asking 94.00 plus 8.00 shipping

charges.

had this phone sold 2 days after listing and much to my customers surprise fetched them 15.00 more than they were originally going to sell it for. This customer was so surprised that they promised to contact me again as they were going to be having a garage sale the following weekend and contracted me to sell the items that were left over. Again fetching them more than they were originally going to sell it for and again making a profit for myself.

So I was obligated to pay the supplier( the person I was selling the phone for)

65.00

The listing to sell the phone cost 2.80

The transfer fee( paypal charges fee to have money transferred to your account) was 2.99

The cost to send the phone to the buyer was 7.64

**Total Cost**

$65+2.80+2.99+7.64= 78.43$

I collected  $94+8= 102.00$

$-78.43$

**PROFIT**

$23.57= 23\%$  profit

Not too bad for about 10 minutes worth of work Ha ( Included taking the package to the post office and shipping) ?

To Refresh:

- 1) I browsed [www.craigslist.com](http://www.craigslist.com) for potential money making ads
- 2) I located a seller trying to sell a cell phone
- 3) I researched the average selling price of the cell phone on ebay and discovered that they were asking about 100.00 less than the average selling price on ebay. ( At that point heard cha ching in the back of my head)
- 4) contacted the person trying to sell the phone and offered them more money than they were asking if they would sell it through my consignment business
- 5) Created a listing on ebay for 94.00+8.00 shipping and handling ( still about 50.00 less than the average listing for this phone)
- 6) Sold the phone to a buyer for 102.00
- 7) money was transferred into my paypal account
- 8) I purchased the phone from the seller for 65.00(15.00 more than they were originally asking)
- 9) I took the item to my local post office and shipped it to the customer
- 10) I kept the profit 23.57.

Pretty easy!!!

Another great way of sourcing products to sell on consignment requires a little more work but is just as rewarding.

### Small family owned stores:

I have also been successful in selling items on consignment for small family owned stores. I simply printed up some business cards with my contact information on and would visit small local family owned stores. I.e. gift shops, antique stores, yarn shops, ect. I would ask to talk to the owner and present myself as a owner of a consignment business, specializing in selling excess or unwanted inventory through a consignment process. Much to my surprise, many small business owners, were more than willing to allow me to sell there unwanted and excess or out of season inventory for them. One customer I have unparticular is the owner of a fabric and yarn shop. Certain fabrics she sells come and go out of season. When she has products that are in her inventory that are not selling or are out

of season she contacts me to liquidate. I usually fetch her the asking price of her inventory or more and earn a healthy 20-25% of the profit.

### Placing ads in classifieds:

This is another great way of marketing your consignment business for little or no cost. Simply create listings in local classified ads offering your services. Create a simple easy to read ad offering your consignment services. This is one I recently created in [www.craigslist.com](http://www.craigslist.com)

I generated two sales from this one ad. This nice thing about craigs list is you can keep reposting the same ad.

## Method #2

### How to make money with a easy method called classified flipping

What is classified flipping? Classified flipping is the process of purchasing a quality unwanted item from a classified listing and than “flipping” it for a profit. This is one of my most favorite ways of generating income. This method does require some of your own funds up front but it is generally returned to you with a very respectable profit margin.

I am sure that you have heard the term real estate flipping. Well I do the same thing with classified ads. I take a product that is for sale with a high consumer demand, I.e. electronics, audio component, communication devices, jewelry ect., purchase them generally below market value and “FLIP” them in the shortest amount of time possible for a healthy profit.

Generally I purchase through classified listings and sell through classified listings. However, you may choose to sell or FLIP your items however you wish. I choose to FLIP products through the same classified listing like [www.craigslist.com](http://www.craigslist.com), to avoid having to pay all the listing fees and other fees associated with online auctions such as ebay.

### So lets get started!!!! Lets Flip and make some **money!!**

Step #1 Locate a high quality product in a local classified ad listing. This product should be in high quality condition with a high resale value and also have a high

consumer demand such as the items listed above.

Step #2 Arrange meeting with seller to inspect item (s)

Step #3 Purchase Item (s)

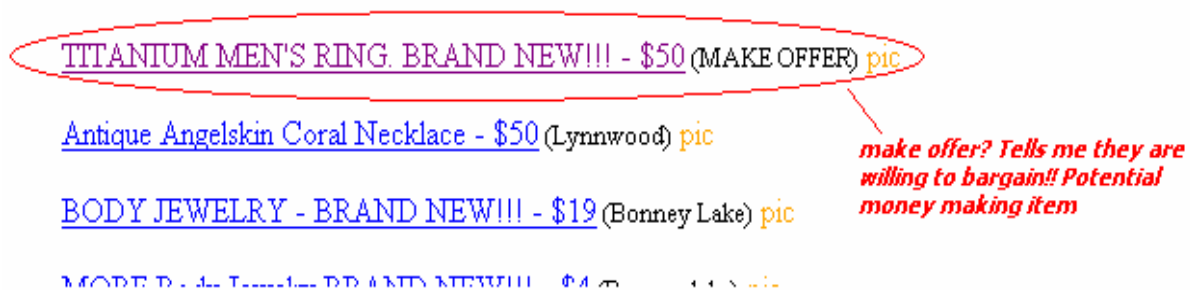

Step #4 Re list item in classified ad with your desired profit. I.e. if you purchased for 25.00 did research and found that it normally sells for 75.00. List it for 75.00. That's a 50.00 profit. Remember to include pictures, buyers want to see what they are going to purchase. Pictures also create a better response to your ad.

Step #5 Sell your item

Step #6 Find your next item to FLIP

Here a some examples of items I recently flipped.

These are from items I Flipped recently out of [www.craigslist.com](http://www.craigslist.com)

So I knew Titanium is a **hot** item and that this could make me some money if I could purchase it at a good price. I did research and found that this ring sells between 225-295 new. Is this too good to be true I can offer 100, which is double the asking price and sell for over 200.00. That's potentially a 100.00 profit in one sale. So this is what I did.

I set up a meeting between me and the seller and inspected the item. The item was in very good like new condition and offered the seller 100.00 dol-

lars, which she agreed to. So, I now had this like new Titanium men's rings that I just paid 100.00 for, now its time to get my money back and earn a nice profit. This is how I did it. I purchased it from Craig list.com and re listed it with Craig list.com.

Here is what my ad looked like

## Brand new Titanium Mens Ring.. Very Nice - \$175 (Tacoma)

ELEGANT, SOLID TITANIUM MEN'S RING with DIAMOND ACCENT STONE, SIZE 11

Very nice ring. Very good condition like new

Make me an offer!!

I listed this on 10-11 and sold it 10-14. Three days later for my asking price of 175.00. Ok, so I didn't get 200.00, but still earned a healthy **75.00 profit**.

Here Is another one I just did

This was a listing for a Blackberry unit with accessories. I had just recently purchased one of these nifty units for myself and paid 189.00 So right away new that this could be flipped for a profit.

I contacted seller in regards to this item and discovered that he also had all original packaging. Even better. So I set up a meeting with the seller and inspected the item. After a little bargaining negotiated the purchase for 80.00. Ten dollars less

than he was originally asking.

I have an almost never been used black berry, 7230g, I still have the box and all of the extras that come with them.  
I am asking 120dollars or best offer.

I re listed the item and asked 120.00. Here is what the ad looked like.  
Ok, so I listed this and asked 120.00(40.00 above what I purchased it for). I had several responses to this ad. The first few buyers wanted to haggle. I was offered 90, by the first buyer and 95 by the second. I could have sold to either one of them and made a profit either way since I only purchased for 80. I decided to hold onto the item for another day or two and see if I could get any better offers. I thanked the potential buyers for there time, took there number and told them I would contact them in a day or two if I could not get a better offer. Later that day, I meet with a person who offered me my asking price of 120.00. Sweet, that is another **40.00 profit.**

Here is another one

This was for a listing for 6 Intertel network office phones. Seller was asking \$50.00 for all 6. Well it doesn't take a rocket scientist to know that 6 of these are

### **Set of 6. Like New Intertel Office phone System Handsets - \$200 (Tacoma)**

---

Reply to: *your anonymous craigslist address will appear here*  
Date: 2006-10-11, 3:28PM PDT

I am selling a group of 6 Office phone Handsets.  
These are for a professional office phone system.  
Units sell new for 200.00 each. What a bargain!!!

this is in or around Tacoma  
no -- it's NOT ok to contact this poster with services or other commercial interests

worth way more than \$50.00. I arranged meeting with seller and offered him the \$50.00 for all 6 of his office phones. Now to make money with them. I listed the set of 6 phones for a asking price of \$200.00. Potentially \$150.00 profit. It took a couple days, however, I sold all six of them for my asking price of \$200.00. That's a **\$150.00 profit**

So you can see how easy it is to make money by perfecting your classified Flipping. I generate about 50% of my income in this segment alone. Classified Flipping is nice because there are always people selling their items and for every one person selling a item, there is another person looking to buy that item. You just have to be the person to sell it to them.. For a small profit that is. Now get to Flipping!!!

### **Method #3**

### **[How to make money by buying and reselling Ebooks on ebay](#)**

What are E-books? An E-book is an electronic (or digital) version of a book. Generally delivered to a persons email inbox. The term is used ambiguously to refer to either an individual work in a digital format, or a hardware device used to read books in digital format. E-books can be purchased from numerous sources and than sold on auction sites for a profit. This main benefit to this system, is once you purchase a E-book, with resell rights. It is yours to do what you want with.

Each E-book will continuously generate income for you. Your main goal will be to make money with it, so lets get started!

### Where do I Purchase E-books From?

E-books can be purchased from many sources, these are the ones I use the most:

[www.bookswealth.com](http://www.bookswealth.com)

[www.ebooksunlimited.net](http://www.ebooksunlimited.net)

[www.bargainebookworld.com](http://www.bargainebookworld.com)

[www.ebay.com](http://www.ebay.com) search for resell e-books in the search field

I also purchase e-books from other sellers on ebay that come with resell rights. I suggest using [www.bookswealth.com](http://www.bookswealth.com), as they have a huge selection and everything is between \$.99 and 2.00 all e-books come with Full resale rights and most come with a professional sales page.

Steps to start making money reselling e-books on ebay:

## **BONUS:**

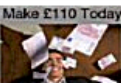

To get you started generating money by, buying and selling E-books, I am going to provide you with (2) FREE E-books, that I Sell myself. They include Resell Rights and are ready to start generating you income.

When you are ready for your FREE E-books, simply email me @ [Latteguy1594@yahoo.com](mailto:Latteguy1594@yahoo.com), with a subject heading of “Give me my free e-books.” and I will email them to you.

#1 You will need to find E-books to start selling. Obviously, you want to offer products that are already selling. So this is what I did. I visited ebay.com, In the search bar, I typed “e-books resell”. This brought up a list of over 2,000 e-books that I could purchase and then resell.

2062 items found for **ebooks resell** [Add to Favorite Searches](#)

<input type="checkbox"/>		<a href="#">Police Auction and Wholesale Ebook.. Resell Rights</a>		<b>=Buy It Now</b>	\$1.84 \$18.55	Free	4m

Next, I went through the listing and researched each listings purchase history. This told me if other sellers have had success selling the e-book before I spent my money on it.

I found a couple of e-books with resell rights that have had success selling to others and then purchased them. Now to make money with them!!!

This is how:

So I now had these e-books that I purchased that came with resell rights, the object is to RESELL them of course for profit. This is how to do it.

#1 Create a listing for your e-book

The e-book I am selling is called “ [10 Exotic Recipe eBooks-100's of re- ceipes++resell right](#)”

I Simply create a listing for this ebook, through auctiva.com. I suggest using auc-

tiva.com, as you can create much more elaborate listings, and they offer many more templates than ebay.

Here is what my ad looks like

I originally purchased this e-book from a seller for .99. I created a listing

You can also: [Watch this item](#)

[Sell one like this](#)

for  $.59 + .49 = 1.08$ . So if I sell one of these I am automatically  $.09$  up. Why do I list it  $.59 + .49$ . I just have had better success listing it that way than just listing it for a flat  $1.08$ . Marketing research shows that ending your asking price with a 9 generally generates more sales. You can list it however you want, I suggest playing around with your asking price and stick with what works for you.

Profit analysis for this one e-book:

Original Purchase Price: .99 1 time fee. After you purchase its yours to sell again and again

Ebay listing fee: .20

Ebay Final Value fee on 1.08 = .05

Paypal transfer fee .33

So If I sell a e-book for 1.08 this is what I make for doing nothing

1.08

-.20

-.05

-.33

---

= .50 cent profit.

Ok, so I know you are thinking wow hoo .50, big deal. Well, I sell about 10-20 of these e-books a day, so that's anywhere between \$5-10, that this one e-book can generate me daily. Keep in mind that is for simply pressing list in myebay. This nice thing about selling E-books, is that once you purchase they are yours to keep forever. Simply sell and re list and keep making money. You will want to have several different e-books that you offer. I suggest taking a percentage of your profits from e-books and reinvesting and purchasing new ones. The more you offer, the more you can make. It is reasonable to assume that if you had 10 e-books that your sold around 10 copies of each a day, which is very doable, you could easily generate an extra \$50.00 a day for very minimal work. So you can see the money that can be generated by investing some of your time in growing your e-book business. I have provided you with your first two e-books, now list them in your ebay and start making money!!

**Method #4**

## [How to make money with a website called www.getestore.com](http://www.getestore.com)

What is Getestore.com? Getestore.com provides you with an opportunity to operate your very own Internet Shopping Mall pre-stocked with brand names such as Sony, Panasonic, Toshiba, JVC, Olympus, Xbox, As Seen on TV and more at wholesale/distributor pricing.

You mark up **your own price** - You make **75-150% profit**, without ever buying products or fulfilling orders. I have had much success selling products through my [www.getestore.com](http://www.getestore.com) and urge your to explore this income generating method.

This method does require a initial investment of just \$49.99, but mine was returned through sales within my first week. Do you ever wonder where all those ebay sellers get there products from? Well I did too, that is how I found this website and now I am among those sellers on ebay.

## **How to make money with Getestore.com**

First you will need to sign up with them and get your own estore. This can be done by clicking on the following link or pasting it into your browser.

[CLICK HERE TO GET YOUR OWN ESTORE!!](#)

Next you will need to choose the name of your new store  
You will then complete your account set up by creating a new account and

choosing the name of your new e-store.

Next, it time to make money.

Ok, so now you have your very own e-store and I am sure you are wondering how you are going to make money with it. This is how I do it. Lets get started

You now have access to the same products that thousand of ebay sellers are making great money with. Now its time to sell your products and generate income.

First step:

You will need to browse through your inventory and choose items that you

would like to sell on ebay.

Second Step:

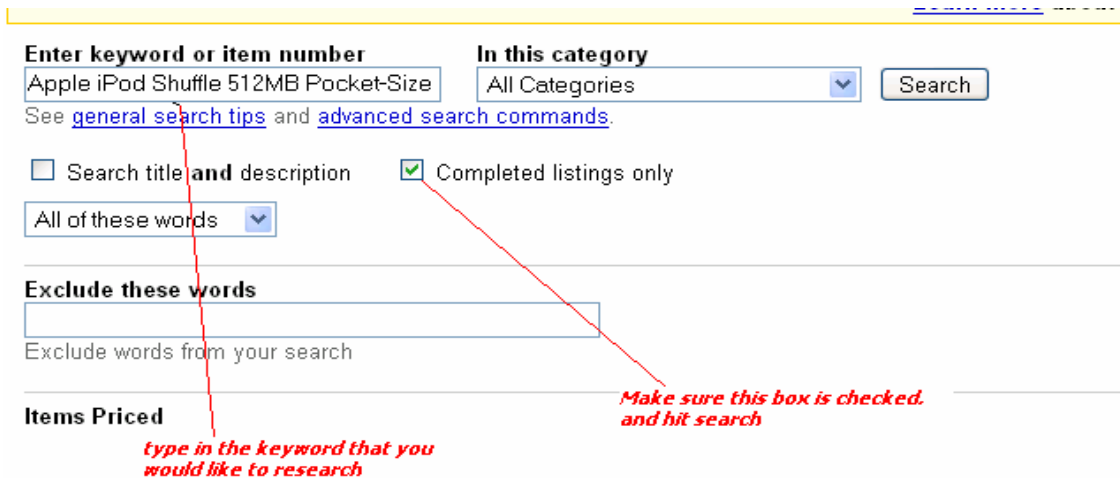

You will need to do research on the items that you are considering selling.

You will need to determine the price that you are comfortable selling the item at, in order to do this you need to know what others are selling it at. I use the advanced search option to view completed listings on the items that I am selling.

Next, you will want to type in the name of the products that you are re-searching. So, if you are researching a “Apple iPod Shuffle 512MB Pocket-Size

**Digital Music MP3 Player.” type that in the search field**

Here is the information this search returned and how to use it when selling products.

Above is a list of over 2000 Apple Ipod shuffles that have recently sold and the average price that they sold at. This tells me the price range that I need to offer this item at to be successful at selling. It is a very powerful tool and advise you in using when listing your items through ebay. This is just an example of how to use this information. I have not been successful selling Ipods as there is to much competition in that category.

Third step:

You have done your research on previous selling prices using the powerful advanced search option and have determined the product that you can successfully sell and earn a profit while doing so. Now its time to list and make money.

This is how I do it.

Here is an example of a product I sell on ebay from my e-store.

My price for this item is 15.99. I sell It for 19.99. Earning **\$4.00** for each one that

I sell. Once this item has sold, I simply press re list in my ebay and resell it again

easy and can generate you a generous income. However, it does require additional time to research your products and determine if you can sell and make a profit while doing so. Your e-store offers you thousands of potential money making products, you just need to find the ones that you can successfully sell.

I have had much of my success selling my products through ebay, however this is not your only option of generating income with your store. If you are experienced with GOOGLE you may also explore their adwords program. This is a CPC (cost per Click) website where you can deliver potential buyers of your products directly to your e-store.

Google AdWords offers you:

### Targeted reach

You can advertise to people searching on Google. Even if you already appear in Google's search results, AdWords can help you target new audiences on Google and our advertising network.

### Greater control

You can edit your ads and adjust your budget until you get the results you want. You can also display a variety of ad formats and even target your ads to specific languages and geographic locations.

### Measurable value

There's no minimum spending requirement or time commitment. And with the cost-per-click option, you're only charged if people click your ads. This means every dollar of your budget goes toward bringing new prospects to you and generating income.

This option may have many benefits for you as customers are delivered directly to your e-store, purchase directly from your website eliminating costly fees associated with listing on ebay, thus creating more profit for you.

Now Get to selling your products and generate income!!

### **How to make money by reselling event tickets**

Ok, so its happened to all of us. You hear on the radio that your favorite music group is coming to town and you are totally excited to purchase your ticket to go and see them only to find out that tickets are already sold out. Or how about your favorite sports team finally making it to the play offs and you really want to go and cheer them on, only to find out that you can not because tickets are sold out for the entire playoffs. Did you ever stop to think that money can be made supplying these tickets to desperate people? Tickets to really hot events commonly sell out on the first day. The most important part of getting tickets to these events is securing them on there first day of sale or preferably before the first day of sale through presale events. Obtaining these valuable presale tickets can for the most part always be done from the comfort of your own home. In the coming paragraphs, I will be explaining how you can get you share of these highly profitable event tickets through pre-sale and supplying you with a highly valuable list of websites that will offer you the opportunity to secure these event tickets. Most importantly I will be showing you how to use this method to make money.

#### **Lets get started!**

**First things first.** Before you start making money by reselling event tickets, you need to do a little homework. Don't worry it easy, but very important. There are two very important key elements that you need to research before you start selling. They are

#### **SUPPLY AND DEMAND:**

\*Supply- How big is the venue you are selling tickets to?

(1000 seats or 20000 seats)

**\*Demand-** How much is the event you are selling tickets to in demand? Is this a highly anticipated event or popular performer

**Supply-** The supply of the event you will be selling tickets to is a huge contributing factor to your success. The first thing that you will need to do is determine the availability of the tickets to this event. Ideally you would like to find events that have a relatively low amount of seat and tickets available or something that is only being featured for one night. Generally, the more tickets/seats available, the less profitable reselling the tickets will be. I make it a point to find events that are coming to town that will only be featured for one night. Resell value on these events are always much higher.

**Demand-** How many people will attend the venue? You will need to research the demand of the event. This can be done quit easily. Is it an event that you have heard a lot of people around town talking about? Have you heard a lot of radio advertisement or commercials on tv? If so, generally your demand for the event is going to be quite high. You may also take time and research the demand of previous performances or events. Here is an example. Ok, so I love Tom Petty. Every year he comes to Washington and plays 1 show at a venue called the “Gorge In Gorge” It is a huge event. This event always sells out within hours of tickets going on sale. So obviously the demand for this event is quite high. This past year when he visited, when I purchased my ticket, I knew that this event would shortly be selling out and there would be people looking to purchase tickets. So I purchased 3 extra along with mine and took them to the event in hopes of selling them for a profit. Needless to say I purchased each of them for \$ 65.00 and at the show sold each of them for \$110.00. Earning a nice \$45.00 dollar profit on each. Prime example, the demand was extremely high for this event and tickets sold out within hours of going on sale, so I knew that reselling them for a nice profit was going to be no problem at all. Another tool that I use when making decisions on purchasing tickets for reselling is visiting the artists official website you can gage demand a lot by researching if the artist sold out previous performances. This can also be applied when reselling event tickets.

Ok, so now you understand the basics of SUPPLY and DEMAND and how they are important when reselling event tickets. Now you need to know where to get your tickets. Lets take a look at that!

WHERE CAN I BUY MY TICKETS TO RESELL?

I primarily use two methods when purchasing tickets to resell.

#1 BOX OFFICE- The box office is the point of purchase for tickets directly at the venue. I.e. you can buy tickets to the Seattle Mariners at the box office at Safeco Field. When the mariners went to the play offs a few years back, I wanted to guarantee being able to purchase tickets before they were all gone, so I went down to the box office about 2 hours before they went on sale to guarantee me being able to purchase tickets to this Hot event

#2 TICKETMASTER.COM. Ticketmaster is the leading source for purchasing event tickets online directly from your own home. I use ticket master.com the most when purchasing tickets myself for resale. This method is Very convenient as it does not require going to the box office and waiting in line. It is very easy and safe to purchase and as I already said can be done directly from the comfort of your own home.

### Steps to buying your highly valuable PRESALE TICKETS

Generally, the purchasing of your presale tickets can be obtained from [www.ticketmaster.com](http://www.ticketmaster.com). However, this will generally require a presale code. This is how I source my presale codes.

### **PRESALEPASSWORD.net- [http://presalepassword.net/presale\\_passwords.asp](http://presalepassword.net/presale_passwords.asp)**

This is a great source for securing your presale passwords. You can get access to presale passwords from all across the nation to events like comedy shows and music groups for a low price of 4.95. Whether you are a seasoned ticket seller or just looking to get presale tickets for a specific event, PresalePassword.net is the place for you.

### **PRESALENOW.COM.**

They provide Information on presale and public sale events. Once a member, view the most current event information and news from coast-to-coast. View their select featured events or have them sent to you via e-mail.

### **FATWALLET**

**[WWW.FATWALLET.COM](http://WWW.FATWALLET.COM)**

This is a forum that primarily focuses on the discussion of presale codes

**SIGN UP ON THE ARTIST AND FEATURED RADIO STATIONS FAN CLUB AND MAILING LISTS-** Most artist have official websites. Generally if you visit these websites, they contain fan clubs or mailing lists. I advise you to take the time to sign up for these clubs and lists as commonly they will provide you with access to these presale codes before the general public can obtain them.

Ok, so now you can successfully obtain and purchase these highly valuable event tickets and I am sure you are asking, "How do I make money with these"? Let me show you.

Four methods for selling your event tickets [www.craigslist.com](http://www.craigslist.com), [www.ebay.com](http://www.ebay.com), local classified ads, directly at the event

As discussed early [www.craigslist.com](http://www.craigslist.com) is one of the most convenient places to purchase and buy from the internet. The main benefit of buying and selling through [www.craigslist.com](http://www.craigslist.com), is that at this time there is absolutely no fees for buying or selling through this site. [www.craigslist.com](http://www.craigslist.com) is a nationwide classified listing and can be used anywhere in the US. Due to the fact that [www.craigslist.com](http://www.craigslist.com) is local I have experienced great success when reselling my event tickets through there. Many people when searching for sold out event tickets either browse ebay or Craig list. Another convenient factor of using [www.craigslist.com](http://www.craigslist.com) when selling your tickets is that it offers the added security of being local which allows you to meet directly with your buyers to do your selling.

EBAY is still another great way of reselling your event tickets as they have a dedicated section on their site especially for selling event tickets. This method makes it extremely easy to list your tickets and find buyers for them. Due to the fact, that most people when buying event tickets from someone other than a authorized source are a little paranoid, it is extremely important to have good feedback if you will be selling through ebay.

**LOCAL CLASSIFIED ADS-** Many local classified ads also have a section dedicated directly to selling event tickets.

**DIRECTLY AT THE EVENT-** We have all seen it. People selling directly at the venues generally right outside the gate. This is a highly effective method of selling your tickets to last minute people. This has been highly effective for me as it

is legal in Washington state However, many states this is scalping and is illegal. Before using this method you will need to check your local laws and regulations to see if this is legal where you live.

### **Example:**

Here are some events that I recently made money with and what the ads looked like that made me the money.

I listed the tickets that I had for sale in [www.craigslist.com](http://www.craigslist.com). I originally purchased them for face value of \$65.00. I sold each of the 8 tickets that I had within days of

them for \$70.00 and sold each of them for \$100.00. A profit of **\$30.00 each or \$240.00 total**. Sweet!!

To refresh:

- 1) Always research supply and demand before purchasing
- 2) Obtain your presale codes to purchase tickets to the event
- 3) Purchase your tickets through [www.ticketmaster.com](http://www.ticketmaster.com) using presale codes if needed.
- 4) Use the described methods to successfully resell your event tickets

**Money back guarantee... No risk!!**

As stated in the auction that you purchased this E-book from, I offer a money back guarantee. I have used these methods for the past two years to generate income for myself and enjoy a comfortable lifestyle while doing so. I am so sure that you will be able to do the same for yourself, if you apply the methods that I have described for you. However, If for some reason you are unable to generate income by applying the methods, I will gladly refund you the purchase price. **To qualify for your refund simply provide proof that you gave this system a shot and were unsuccessful. Provide links to your ebay listings showing that you followed the steps described.** At our discretion we will determine if you qualify for the guarantee offered. To date, no refunds have been issued because this system works!!

### **Conclusion of E-book**

When I first started using these methods, I was probably like you. I was working the usual 40 hours a week at a 9-5 job, making minimum wage doing something that I really did not enjoy. I knew there had to be something better for me. Boy, there sure was. I have spent the past two years self employed generating more income for myself in a single day, than I would make at my old job in a entire week. I have done this by applying the methods described above and now enjoy a comfortable life, working at my own pace and doing something that I truly enjoy. As stated in the auction this is by no means another GET RICH QUICK scheme, you will not get rich quick, but you will definitely generate a respectable income. I quit my job and now generate a very comfortable income doing so, however, you do not have to, nor am I advising you to quit your job. I originally wanted to find something that I could do from home, something that would work around my current schedule and most importantly something that would generate **\$\$CASH\$\$**. I believe that after many trials and errors, I have found those methods and am very pleased to share them with you.

I have provided you with 4 powerful ways to make money. I would advise you to explore each of them as all of them generate me income on a daily basis.

I hope that by purchasing and reading this e-book it may create and spawn

business ideas of your own way beyond what has been described in this E-book.

I Thank you so much for reading my E-book and wish you much success with all your future business endeavors.
