The Truth about Easy Success

Today, more than ever before, we're surrounded with get rich quick, money making systems. Many are lousy. But, there are some that actually work. Of all the money making systems available, **all** require one *magic ingredient* from you and I.

Unless we're willing to work for our success, the ideas contained in this e-book and all the libraries and bookstores in the world remain nothing more than *interesting ideas*.

Unless we're willing to take *CONSISTENT ACTION*, purchasing and reading any success system is time and money wasted.

The best selling book of all time is The Bible. The second all time best seller s **Think and Grow Rich** by Napoleon Hill. It's Brilliant!

Always remember what Mr. Hill teaches us: "Knowledge is only potential power." We must take our organized plans (for instance the MySpace Money Machine System), and apply the magic ingredient of persistent action. Otherwise, we're doomed to be benchwarmers in the game of life.

By the way, we sell the **Think and Grow Rich** e-book in our **eBay Store**. The information will CHANGE YOUR LIFE FOREVER, and at only \$2.85 per copy is a true value!

How MySpace Works:

The Internet has changed the world. First it was bulletin boards, then chat rooms. Next eBay and now MySpace. Online communities are now part of our lives. If you're new to MySpace, let me give you an idea of the money making potential the site holds for you and me:

Presently, MySpace has just under 70 million registered users. It is the largest virtual community in the world. Tens of thousands of new members join each day. It is absolutely FREE to join, and you can pick and choose your friends (in other words target your market).

Take a moment and compare MySpace to the worlds other great online community... eBay. As eBay is a virtual shopping mall, MySpace is a virtual neighborhood.

*"Thanks very much for a GREAT book. After reading your book my head is spinning with new ideas. I really can't put into words my thanks for helping me over the top on my eBay plans. FINALLY a simple plan explained the way most people can understand it. I must admit, part of me knows **you should be selling your book for more money**. It would be WELL worth it! Thanks AGAIN! Off to read it again and absorb a little more." Mike W. Salem, Ohio*

One of my earliest success mentors teaches that one of the keys to success is to GET THINGS DONE. We must get things done with people, for people, around people, in spite of people, or **THROUGH PEOPLE**. Without a doubt getting things done **THROUGH** people is the best and quickest way to success!

The fancy name for getting things done through people is "networking". Don't worry, it has nothing to do with network marketing or some scam. It just means connecting with a group of people who want what you have, impressing them, and asking to be introduced to their friends who want what you have.

How we do this to make \$\$\$ will become clear in a moment. First, lets learn about creating a MySpace profile.

The word "Easy" is on the left, "Success" is in the middle, and "Systems" is on the right, all connected by a continuous script.

Friends are an important part of the MySpace Community. It's just like when you and I go to a party or social gathering or meet someone new through a mutual acquaintance. At MySpace, we can add and remove friends with a click, using a simple list at the bottom of a members profile. You can also be asked to be added to a persons list with a link on their profile.

The cornerstone of the Myspace Money Machine System is to add as many friends as quickly as possible. The more friends you have, the more money you'll make!

Groups are just that. They're virtual meeting places where friends with similar interests can got together and discuss topics of mutual interest. This is a great thing. Groups allow us to target in on our friends with common interests, and impress and delight the heck out of them. Remember, provide them with what they want? You'll see how this works in a moment!

Generally speaking, there are four ways for us to **communicate** with our friends on MySpace:

1) **Messages:** Messages are emails sent between friends. They're great for communication, but worthless for our purposes. The problem... You're only communicating with one person at a time. [Click Here!](#)

"I was extremely skeptical when I first went to the Rich Jerk webpage, but I was converted within 2 or 3 pages of the program. In the month after purchasing The Rich Jerk, I made more money than I did in the six months previous." Kevin Lewis

2) **Bulletins:** Bulletins are the key to the system, and we'll be using them extensively. All they are, are public messages that everyone in our group can look at.

3) **Blogs:** Blogging is another great way to get targeted traffic. A blog is sort of like an online newsletter. You have your list of subscribers who can read your blog ("web-log") when ever they wish. We'll give some tips on blogging shortly.

4) **Forums:** Forums are similar to bulletins, except that forums are active conversations within the group. Everyone has the opportunity to contribute, while blogs are single postings that can't be responded to.

Making Friends: At this point you have a Myspace account, and a nice looking profile. Now it's time to start adding friends quickly. For some, adding "friends" who aren't truly friends may be outside their comfort zone.

Relax, and review the **MySpace policy**. You may have multiple accounts, as long as each one has a unique email address associated with it. Next, think of how many true friends you actually have. Most people have two. The rest are acquaintances we enjoy spending time with. Don't be intimidated by adding "friends". Just get busy and do it.

Click Here!

www.AdultFriendFinder.com

As you get into this, you'll want to open several accounts and experiment with various niches, while keeping an account open for personal use. Remember the key to success here is to grow your friends list as large and as fast as you can.

Makin' it Grow: OK... Time to network! First here's what we WON'T be doing. Traditionally, you'd search through the database and find someone that looks interesting. You'd click the little icon under their picture asking to be added to their friends list. A message is sent to that person. Then you'd wait... and wait. If they add you; good. If not, then it's off to the next profile.

It's an OK method, just too slow for our purposes. Here's the Money Machine way! Remember we talked about opening multiple accounts? First thing we'll do is *customize* those accounts.

Have you ever heard "A picture is worth 1000 words"? On MySpace, a picture is *priceless*. The brutal truth is that nobody wants to add a fat, balding middle age guy to their friends list (describing me, not you my friend). The most appealing profile to nearly 100% of the MySpace community, male and female, is an attractive woman.

There are other ways to be appealing to your potential friends, but this is by far the most direct route. If you have moral concerns about pretending to be someone you're not, there are alternatives.

Click Here!

Click Here!

If you have an attractive friend who will provide you with pictures, and is comfortable with the profile for profit concept; that will work.

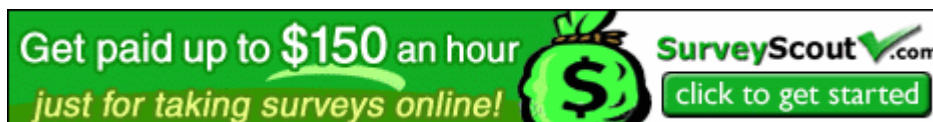

You can approach other members who fit the description with a joint venture opportunity. If they already have a large list of friends, that's even better! There's more about joint ventures just ahead!

Yet another alternative is to create a theme based profile. Suppose you're into **eBay**, gourmet dining, or **gambling**. You can create a profile around any activity you enjoy. I recently helped the BF of one of my employees put together a list of almost 10,000 friends by creating a profile around the game Halo. *

** **Note:** As of this writing, the rules around creating a profile and using names of individuals and trademarks has not been clearly defined by MySpace. In the future, MySpace may prohibit the use of such profiles. Take advantage of this opportunity while it's available. Also, stay informed about their **Terms of Service**.*

The MySpace Money Machine Way: A MySpace train is the most efficient way to generate a huge list of friends. Trains are just websites with a basic program code included in them. The code allows members to add their profile to a virtual chain that spreads throughout MySpace via bulletins. These bulletins propagate virally as they move through the community. The result: Exponential Growth= A MASSIVE FRIENDS LIST. Now THAT'S Networking!

<http://whoretrain.net/>

Whoring?: Yep, sorry but that's what it's called in the MySpace community. Whoring is a private version of the train method. Instead of jumping on a train, one can contact as many friends as they have on their list, and offer a W4W (whore for whore) Trade.

W4W is an exchange program. It's a pact between 2 friends that will post each others profiles in a bulletin to be seen by all their friends. The post will include a couple of sentences about how great the person is, and there will be an "add friend" message embedded in the text.

You don't need to be a rocket scientist to create a W4W bulletin. If you don't know HTML, no problem. There are many good text generators out there. Start with the free MySpace text generator by clicking **HERE**.

See... It's networking again... Getting others to add you to their friends list because you were recommended by someone they know. I send a bulletin to my friends saying you're great and should be added to their list. You do the same for me. We both increase our visibility.

Target Your Friends: We talked about groups earlier. Now please let me elaborate, as they're key to the money making process.

We like groups because they indicate what our friends want and are looking for. A great thing about the Internet is how we can easily track trends in an organized way. We can then take action based on this information at *our* convenience.

On MySpace, groups can be viewed by everyone in a central forum. There's no need to create a target niche. It's already been created for us. Members that are interested in cars have their own groups. You can get even more specific by looking for groups that are into Fords, Ford Mustangs, or even Vintage Ford Mustangs.

Even if there isn't a group for the specific interest you're looking for, you can start one. You'll grow a list of members before you know it.

There are rules for each group that must be followed in order to participate. For example, some groups knowing that marketers are trying to make some money, and won't allow you to place an ad or link in their forum.

Few groups are completely intolerant to advertisement. Seek out those that serve your needs, and you'll be fine. Just read the rules and be aware of them. You'll save yourself time that might otherwise be wasted.

I've had great success by starting my own groups. By becoming a group moderator, you make the rules and don't have to put up with anything you don't want to. Plus, it's a great way to eliminate any competition.

OK... Now you know the Ins and Outs of MySpace... It's time to get into the real info!

PART TWO

How to generate Profits from Your Profile: Now we get into the nuts and bolts of the system. One of the many inspirations behind these concepts came from Jim Cockrum, author of **"The Silent Sales Machine Hiding on eBay."** As a true internet marketing EXPERT, Jim shows you methods of making residual income on and off **eBay**, in ways that will make your head spin! The Silent sales machine is a treasure chest of unique and powerful marketing tactics. Also, priced at under \$30, it won't break the bank.

The way we will use our profile to make us rich, is to introduce our friends within a group (target market) to someone who can provide what they want (networking), in the form of a affiliate company (W4W).

An affiliate is just a company who offers a pay per lead or pay per sale commission to you and I. They act as independent third parties who are responsible for tracking our sales results, and paying out commissions. Once you register, you are given your choice of hundreds of businesses and marketing programs to work with. Each is willing to pay a commission to you for referring customers and clients to them.

The banner features a blue background with a red and yellow gradient at the bottom. On the left, there is a small image of Ewen Chia with the text 'Ewen Chia Website www.EwenChia.com'. The main text reads 'Ewen Chia's SECRET Affiliate Weapon' in large, bold, yellow and white letters. To the right, there is an image of a stack of US dollar bills. At the top right, it says 'THE EASIEST MONEY YOU'LL EVER MAKE!' and at the bottom, 'HOW TO CREATE AVALANCHES OF INSTANT CASH INTO YOUR BANK ACCOUNT AUTOMATICALLY!'.

[**Click Here!**](#)

Here are four that we've worked with extensively. All pay commissions regularly, and have proven track records:

www.ClickBank.com

www.RevenueGateway.com

www.LeadersMarket.com

www.CommissionJunction.com

Take time here to become familiar with these sites. You'll be using them a lot. You'll also be receiving FAT commissions from them! If the sign up process seems a little overwhelming, just get busy and do it. Remember the magic ingredient... *CONSISTENT ACTION!*

We've found that a lot of people shut down here. Don't be an 80 percenter. Instead, be one of the twenty percent that follow through and get the reward. Without a knowledge of these websites you'll have no knowledge of what products you have at your disposal; and ultimately no money from your MySpace Machine.

OK... Let's start making money. First enter the "Groups" section on the MySpace homepage. It will look like this:

<http://www.myspace.com/easysuccesssystems>

Remember to Add Me as a Friend;)

Browse the page for the categories that interest you. I look for categories with lots of members. This is a numbers game. The more members the better for us.

Click Here!

Click Here!

OK, as soon as you've found a category within a group that you feel targets a specific niche, it's time to find a product that best fits that niche.

For example: Suppose that you find a group dedicated to the HBO series "The Sopranos" (actually there is such a group. As of this writing it has just under 5000 members). Your job would then be to find an affiliate campaign that matches that group. Most affiliate networks have search features within the site. So, you'd go to [Clickbank](#) or [SurveyScout](#) and type in "Sopranos" and see what's out there.

I've been using a survey offered by [SurveyScout](#) that pays \$1.20 per lead. All my friends have to do is give their opinions and include their zip code, and I get paid! No personal info is needed. These surveys are usually short, simple, and require minimal attention span.

So what you would do is create a bulletin within this group about the survey. Approach your fellow group members with something interesting for them to check out. Be Creative! I start by giving my opinions about the survey, and then ask what they think. Be objective. If there are things you DON'T like about it include those. In fact, I'd make it a rule to always include one thing that you DON'T like about anything you're promoting. Don't be negative. Just be real.

Even if you have a real bad click through rate, say 1%, you're still looking at a quick \$50. And that's for something that will take you 10 minutes to set up.

Now imagine having several of these machines, each producing several hits of cash each week... Staggering!

WELCOME MY FRIENDS TO THE MACHINE!

Before we leave this example, suppose you didn't find a survey about The Sopranos. What else can you locate that is Sopranos or Mafia related? Use **Google** and **eBay** to stimulate your imagination. By the way, if you type **Affiliate Programs** into any search engine, you'll get about 10 million hits. Don't limit yourself to the few provided above. The internet is a big place. Take advantage of its resources.

Repeat Customers=BIG MONEY: Blogging is just like having your very own newsletter on MySpace. Thousands of internet marketers make money by targeting a market, and writing a continuous newsletter about the subject.

You will do the same to produce additional profits. Start thinking of interesting topics that will entice visitors to return to your blog in anticipation. Once you begin to spark the imagination of your visitors, you will take advantage of the traffic, and turn it into cash. It's just a question of what's the perfect product to present to your readers.

Remember: Help your friends get what they want, and they will happily make you rich.

Consider starting a blog about things you have enjoyed or found useful. How about a tip of the day or website of the day blog. Your readers will listen to what you have to say as long as they feel you have their best interests at heart.

To learn about the full moneymaking power of blogging, you'll want to visit the following sites:

www.BloggingToTheBank.com

www.BloggingCashMachine.com

Make Money while you Help Your Friends get Whored:

This is where having a large list of friends becomes profitable. Every day new people, businesses and bands join MySpace. These folks need friends quickly, and the best way for them to get them is to get whored by you!

Your mission should you choose to accept it, is to create a blog or bulletin saying something like:

"I'll guarantee 2000 friends added to your list each week for \$50 per week!"

You'll get plenty of responses. The trains we talked about in part one will get you friends, but not at the rate of 2000 per week. The quickest way for others to add huge numbers of friends to their list quickly, is to get whored by you and I. Take advantage of this, and make money.

MySpace, the Final Frontier: In a minute I'll show you more ways to use your huge friend count to make money. Even if you don't have that many friends yet, you can use another member's profile to generate income.

I've already told you how adding friends to the profile of others can bring a nice income. But, the opportunities don't stop there. If you do a search on **eBay**, you'll find profiles for sale for up to \$1000 each. Imagine selling 3-4 of these each month!

Make money selling advertising space on your profile, bulletins and blogs. Create a bulletin saying you have virtual real estate for rent, and see how many hits you get. Just like all real estate investors, YOU decide how much rent you will charge.

If you haven't built up a large friends list yet, you can pay another member to use their profile. Search through a

bunch of profiles until you find a member that has 1000s of friends. Send an email saying you'd like to buy some space on their page. You might get a few "NOs", but just persist. You'll find a nice friend who's willing to do it.

Then study your *landlord's* profile. What is attracting the high friend count? Is it age, gender, profile theme, their groups and interests...? This will help you identify the market you're selling to. Finally, review your affiliate products, and pick accordingly.

As you make these high traffic members your friends, you will have an unlimited number of visitors to promote to.

PART THREE

Tips, Tricks and Secrets: Here are a couple of tricks for you to keep up your sleeve. Use them to dazzle your friends on the way to the bank!

Trick One: Even before you've developed a huge friends list, you can make money with the ones you have. Remember the example with the Sopranos we looked at earlier? Those type of surveys are a dime a dozen at LeaderMarkets.com. They have at least 50 of these types of surveys you can choose from.

What you'll do is start a campaign with all 50 of them. They're great because they're very short, and only require a zip code.

Next, post a bulletin that goes something like this:
"My friends are the greatest. They're always willing to help out a little, especially when they get something in return."

Your goal is to get them interested in what you're offering. Those that are motivated will become engrossed in what you're doing, and you can guide them through the process of becoming a [LeaderMarkets](http://LeaderMarkets.com) affiliate.

Once you have 10-15 friends that have [LeaderMarkets](http://LeaderMarkets.com) accounts, you can exchange survey ads with each other and everyone makes money! As your network grows, so will your profits.

Trick Two: This is a spin off of the Pay per leads survey. It will take a little more effort on your part, but the payoffs are greater. You'll want a high friend count for this, so **jump on that train.**

Your bulletin will read something like:

"Dear MySpace Friends:

I know your time is valuable, and I won't waste it. I have some surveys that only require a zip code. I've listed them below. Will you please take a moment and run through them. I just want to get a few leads.

*By the way, if you haven't heard of **LeaderMarkets**, it's a great affiliate program, and will earn you \$\$\$!*

Please sign up now, and I can return the favor.

Thanks!"

(Be sure and use YOUR affiliate link in your message so you'll get paid!)

There are a LOT of survey companies that pay a dividend for each survey you take. One of my favorites is **SurveyScout**.

Let me explain the difference between **LeaderMarkets** and **SurveyScout**.

LeaderMarkets pays YOU to get people to take surveys. Your friends are required to do nothing but take a simple survey, but they get nothing in return. You, as the affiliate get paid every time they take a survey.

With the **SurveyScout** program, instead of asking them to take surveys on your behalf, you present to them the idea of getting paid every time they take a survey. Every time one of your friends or customers subscribe to SurveyScout, you get paid.

Click Here!

"I was very skeptical about joining, but I was immediately impressed. I've received many surveys and have earned hundreds of points, cash, and free stuff. All this in just one month!" - Jennifer L., Anaconda, MT

Once you sign up with **SurveyScout**, you can post a message in your profile, bulletin or blog. Again; don't sell a product. Just tell your friends about a good way to make some easy money.

Writing good copy is a science, but it's not rocket science. Play around with different ideas, and change your messages frequently. Before you know it you will have mastered these simple skills.

The secret is to DO SOMETHING. Even if your ad copy is terrible at first, you now have something to improve upon. Remember... **Persistence** and **Action!**

Easy & Rocky

...and Finally:

Thank you for taking time to read my book. Remember to share the good news. This WORKS!

And for my friends and the beta testers that helped me put this system together--**THANK YOU!** You know how much extra cash came from taking surveys in our down time.

And for those of you new to the MySpace Money Machine System, and yet unaware of the stiff shot of cash you can make from taking surveys, I encourage you to join us. By the way, YES, I personally use **SurveyScout**. There are many such companies out there. Find one that makes sense to you. Just make sure you don't select a worthless site that takes your money without return. **SurveyScout** pays.

I'm eager to hear your feedback. What did you like about my book? What did you hate about it? Are there points I should clarify?

I'm here for you if you have questions. The best way to reach me is at BigEasy@Easy-Success-Systems.com

Please let me know about your success. It's what keeps me going in this crazy business (although I like the money too);

Respectfully Yours:
